RE:ABSORB

Proper food digestion is the key to maximizing your energy levels and getting the most out of each meal. Although digestive enzymes occur naturally in foods, they are often destroyed by commercial growing, cooking, and processing methods. The enzymes in Re:Absorb can supplement vital enzymes that are lost in processed foods and help ensure your body is able to absorb the nutrients you eat. To replenish your body with essential enzymes, support proper digestion, and support vitality and overall health, turn to Re:Absorb.

INGREDIENT INFORMATION:

At the heart of Re:Absorb is a proprietary Chelate Activated Enzyme Delivery System (CAeDS®) - an exclusive nutrient delivery system for maximum effectiveness.

- Contains the enzymes for digestion (not just amylase, protease, and lipase) so that foods are broken down into their most useable form.
- Uses only plant enzymes, allowing the enzymes to work throughout all phases of digestion.
- CAeDS® provides all of the cofactors necessary for full enzyme activation.
- Natural, highest quality ingredients, and completely vegetarian.
- Contains no gluten, MSG, salt, sugar, artificial colors, flavors, sweeteners, or chemical preservatives additives or fillers.

Re:Absorb, with its pure plant enzymes, assured enzyme activity, and exclusive delivery system, stands alone as the ultimate digestive enzyme formula.

TAKE RE:ABSORB IF:

- You eat cooked or processed foods
- You drink more than 2 carbonated beverages per day
- You feel bloated or have discomfort after eating a meal
